

So Ill just follow the rubric and let you know where each of those items are in that order. Just a FYI, I used all 5 of the optional features. ALL IMAGES ARE MY ORIGINAL IMAGES AND I GAVE MYSELF PERMISSION TO USE THEM.

- 1) Homepage = index.html
- 2) JQuery effects = main.js file which interacts with the hide and show of map. AND inside the map.js AND in mychart.js
- 3) Modernizr = Loaded in the head tag of each page and executed in various .js files
- 4) Map = You can see it by clicking text on the homepage. Its javascript is in map.js
- 5) Image gallery can be viewed in portfolio.html and its javascript is in blindify.js
- 6) Data Vis = about.html and in chart.js and myChart.js
- 7) HTML5 Audio is used on the bottom of index.html
- 8) Canvas is used in the myChart.html
